Feedback Report on Extension Service: First Half of May

This report informs you the results of a phone survey conducted to farmers in your designated communities. This survey is a part of the research project by Japanese researchers from the National Graduate Institute for Policy Studies (GRIPS) and Hitotsubashi University in cooperation with the Ministry of Food and Agriculture and Japan International Cooperation Agency (JICA). This survey will be repeated every two weeks from April to August. The report will be shared to the district officers.

Name of AEA: [name withheld]
Name of District Office: [district]

Result 1. Number of times AEA (you) visited farmers in last two weeks

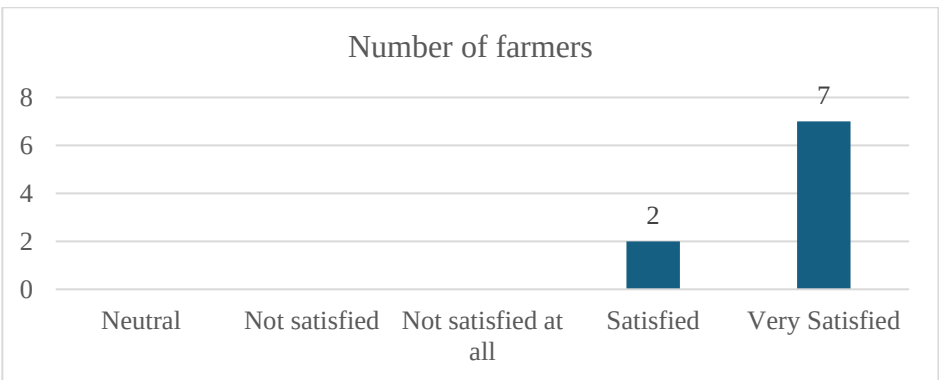

(This figure is based on the responses from 10 farmers in your designated communities)

Your average	1.0 visits per farmer 0.8 visits per farmer (last month)
District office average	0.7 visits per farmer
Best AEA in district office	2 visits per farmer

Result 2. Satisfaction levels of (your) extension services in last two weeks

(This figure is based on the responses from 9 farmers in your designated communities)

Result 3. Reasons for satisfaction/ dissatisfaction

Satisfaction: ● Taught us good agriculture practices (GAPs) (5 farmers) ● Always available when needed (reliable) (3 farmer) ● Helped me with a pesticide due to worm infestation on my maize farm (1 farmer)
Dissatisfaction: ● NA
Other comments: ● I do not know if the Extension agent came to the community because I travelled.
